

THE ASKYOURTEAM INVOLVEMENT SYSTEM FOR
THE HEALTH AND DISABILITY SECTOR

Helping create equitable outcomes for all New Zealanders

Areas of focus for the Health Sector

The Heather Simpson Health and Disability Review presented to the Minister of Health in 2020 informs AskYourTeam's solution.

“The health and disability system must act and be managed as a single integrated system”

NEW ZEALAND HEALTH AND DISABILITY SYSTEM REVIEW

Issues identified

The health and disability system must act and be managed as a single integrated system comprising public, private and non-governmental organisation (NGO) providers.

New Zealanders health and wellbeing is important to them and needs to be prioritised and protected. Many New Zealanders want the system to be more accountable and transparent, and to be heard, seen, listened to, and treated fairly.

More active leadership at all levels is needed.

The AskYourTeam solution

A single platform gathering insights from multiple stakeholders across the healthcare sector, using this data to better inform collaborative decision making.

A single platform that gives New Zealanders a voice and involves them in improving their health and wellbeing. These powerful insights will inform the Health and Disability system enabling greater transparency, higher accountability and ensuring the voice of New Zealanders is heard, seen and listened to.

AskYourTeam has co-created tools for leadership development based on the LSP framework, enabling organisations to manage and develop leadership capability more effectively and efficiently.

Collaboration and inter-connectedness made easy

“Improving population health outcomes and equity requires the system to truly focus on communities and what they need.”
